

It's important that we understand how to go on from here. This training allowed the Lord to have a very significant victory in battle. The very fact that we could have this training and the words could be released was a great victory to Him, and a great battle for many of us.

Now, the enemy's tactic and the Lord's strategy is something we need to see. It's not complicated. After a high , spiritual experience or event, when we are uplifted, open, and quite thrilled, we may not realize we are vulnerable. That's when the enemy counterattacks.

The Lord's strategy is that we would now just withdraw into the victorious Christ Himself. In a sense it's a strategic retreat. Don't get up tomorrow looking for a fight, don't look for demons to cast out. Let's all just withdraw into the victorious Christ, and where the enemy cannot touch us. Then we should go on to follow a word brother Lee gave us. "The Christian life is a life of ordinary days under the divine dispensing". So now we should not focus on the army, or even the battle, and not on the enemy, but on our wonderful All-inclusive Christ. Every day eat manna, speak to the rock so the water will flow, and when necessary, apply the water for impurity to wash away all defilement. Gaze upon Christ who died to fulfill the type of the bronze serpent. Just enjoy Him.

But do this with a particular attitude toward the Lord, that is, that you're coming to Him as an open vessel to receive His dispensing , and allow Him to serve you and care for you, train you, and even deal with you in any way He wants. Just little by little day by day. We have time to make it. We don't have time to waste. Then in the meantime, just live a normal, practical church life.

So we should return to our daily situations, to our circumstances, to our church life, very calm. And we know when to open our vessel, and when to cover it and close it, and we believe that there will be prayers offered constantly at the incense alter for growth unto maturity ,and more and more will reach the age of 20 before this year is over. So we just thank the Lord for what He has done and where he has brought us. Don't you just sense the harmony, the one accord? The Lord finally terminated the age difference and any feeling about it.

Now we have a heavenly vision of God's people. Let's just go on beholding the Lord, praising the Lord, loving the Lord, enjoying the Lord, looking at all the beautiful, perfect, holy saints, so the Lord would have a way to go on to fulfill the longing that He's putting within many of us - Lord, come quickly! Come back! Establish your kingdom on the earth. Praise the Lord!
